

Program of the day

09:00 - 09:30

Welcome coffee

09:30 - 10:00

Valorization and quantum technologies, Matthieu DELBECQ, LPENS, C12, DIM QuanTiP

10:00 - 11:00

Patent - a tool for innovation, Enrico PRIORI, Atout PI Laplace – Groupe Vidon

11:00 - 12:00

Key principles for scientists aiming to found a Start up,
Eric LANGROGNET, Limpidea Management

12:00 - 13:00

Lunch break

13:00 - 14:00

Technological contest in parallel with a Poster session

14:00 - 15:00

Setting up a quantum metrology company: feedback from 4 years of experience (achievements, failures, lessons learned), Rémi GEIGER, Kwan-tek (ex Wainvam-E)

15:00 - 15:30

From Research to Entrepreneurship: Building a Deep Tech Startup with Entrepreneur First,
Clémence BELLANGER, Entrepreneur First

15:30 - 15:50

Coffe break

15:50 - 16:20

Financing the first steps of your project with CNRS Prematuration program,
Bertille HOUADJETO-KOFFI, CNRS Innovation
A program for accelerating your innovation within Sorbonne University Alliance,
Olivia LEROY, Faculté des sciences et ingénierie, Sorbonne Université
Valorization – Financing maturation projects, Xavier FANTON, SATT Lutech

16:20 - 17:20

Cold atoms on a volcano, Bruno DESRUELLE, Exail

17:20 - 17:30

Poster presentation contest - winner announcement
Technological contest - winner announcement
